PUBLIC SERVICE
COMMISSION

Dear Director

My name is James W. Harris. I live at 492 Harris Hollow, Argillite, KY. Presently there is a Notice posted on our road indicating that a new cell tower will be erected near my house on the adjacent property. The case number is #2008-00258

I own a cell phone and am certainly not immediately objecting to its construction, however I am concerned about any health risk that might occur from living as close as we will. My son and his wife along with their 2-year-old son live beside my wife and I. I am more concerned about My Grandson and His future health than anything else. I have tried to find information on the Internet about the dangers of living close to these towers, but there, you can find about as many Pro's as Con's and I am still unsure about its effects.

I would like to have accurate information about the long—term effects of living near this type of cell tower. Can you furnish us with this kind of information?

Thank You,

James W. Harris
